

ELOQUIUM DEBATE

Bootcamp

22–23 November, Marrakech

2 days. 20 hours. 1 transformation.

THE AGE OF BECOMING:

Finding Humanity in a World Rewritten by Algorithms.

From the fierce debates of the **Eloquium Cup in April 2025**, to the energy-charged **Summer Camp in July 25'**, and through the **September 25' Debate Camp** : each moment has built the momentum that leads us here.

This November, we're gathering the students **who refuse to stay the same**. The ones who **think harder, question deeper, and aren't afraid to dissect** the world as it shifts beneath their feet.

Thanks to our strong connection with **The Moroccan National Debate Team**, we're able to bring **insights** and **guidance** informed by **Morocco's debate leaders**, while keeping this program fully independent and **focused on your growth**.

If September was about building your voice, this edition is about **defending it**.

Refutation.

Rebuttals.

The art of standing your ground when everything around you is trying to bend your logic, break your clarity, or shake your confidence.

Because in **The Age of Becoming**, where algorithms rewrite the rules of how we learn, think, connect, and even feel : your ability to **question, analyze, and refute** is what keeps you **human!**

At **Eloquium**, our motto is simple: **SET THE STANDARD.**

But this time, the standard is higher.

More demanding.

More you.

You made it here and now the real question is: **Are you ready to become who the future needs you to be?**
